

Welcome

Dear residents, welcome to our September newsletter.

The date for Riverfire is 29 September this year, which is a month later than usual.

Things to keep in mind for Riverfire night

Be sensible about the amount of visitors you invite. Consider that there will be queues to get into the building and no parking. Inviting too many guests may spoil the night.

The forecourt area, including pool and BBQ areas will be closed off with no access. The only viewing will be from apartment balconies.

As usual, there will be security guards at the doors and in the driveway to make sure no one goes where they shouldn't.

Take time to introduce your visitors to Admiralty Quays and make sure they understand the security of the building as well as the rules.

Adhere to sensible noise levels, you are responsible for your guests' behaviour. Late night parties are not acceptable.

We hope everyone thoroughly enjoys the night and please do ask at the office if you are unsure about anything.

Visitor Parking for Riverfire

Visitor parking is in great demand on Riverfire night. If you have an unused car park on the night please consider making it available as a guest parking for that evening. Just let the office know about it.

For those who have visitors please make sure they know we will have little option but to tow vehicles parked where they shouldn't be.

Staff Movements

Stephen Goldsbury is on annual leave from 6 September to 6 October.

Gary's daughter, Ilze Willis is taking care of the front desk in his absence.

Month End Drinks

Last month we had a really good turnout for our month end drinks.

On the last business day of each month residents meet in the Foyer at 6pm for drinks and nibbles. Please feel free to join us as everyone is welcome. You simply bring your own drinks and something to drink from.

Recycling

Too many people get it wrong at our recycling station on P1:

- Plastic bags are a contaminant. Remove bottles and cans from plastic bags when you put them in the bin. The same goes for boxes, please remove bottles and cans from boxes before putting it in the bin.
- Every day we find polystyrene and plastic in the cardboard recycling. Polystyrene is a contaminant, don't put it in the recycle bin at all.
- Always flatten boxes.

Car Parks

Please keep your car park tidy from litter and do not store any furniture in it.

Power Point

A power point has been installed on the wall of the car wash bay. This will allow residents to also vacuum their cars.

Kind Regards

Gary and Trina Willis
