

## Welcome

Dear Residents, welcome to our September newsletter. We hope that everyone has been well.

The date for Riverfire is Saturday 27 September and we are all looking forward to another spectacular fireworks display.

## Things to keep in mind for Riverfire night

For those who have not had Riverfire night at Admiralty Quays, here are some things to keep in mind.

Think about the amount of visitors you invite. Consider that there will be queues to get into the building and no parking. Inviting too many guests may actually spoil your night, so be sensible. Ask visitors to arrive early to avoid queues.

The forecourt area, including pool and BBQ areas will be closed off with no access. The only viewing will be from apartment balconies.

As usual, there will be security guards at the doors and in the driveway to make sure no one goes where they shouldn't.

Take time to introduce your visitors to Admiralty Quays and make sure they understand the security of the building as well as the rules. You must point out the fire evacuation procedures to them.

Adhere to sensible noise levels; you are responsible for your guests' behaviour. Late night parties are not acceptable.

We hope everyone thoroughly enjoys the night and please do ask at the office if you are unsure about anything.

## Visitor Parking for Riverfire

Visitor parking is in demand on Riverfire night. If you will have an unused car park on the night

please kindly make it available as a guest park for that evening by contacting the office.

For those who have visitors please ensure they know we will have little option but to tow vehicles parked where they shouldn't be.

## Bicycle Audit

The body corporate will soon be doing an audit of all bikes on P1. Please keep an eye out for notices in the lifts to get your bike registered. Any bikes not registered will have to be removed.

## Staff News

Trina Willis recently completed a First Aider certificate and is doing a part time Cert IV in Fitness. Rita Agenbag is undertaking study to be a CPA. Alejandro is studying a Cert IV in Accounting. Irma has completed a Cert III in English Proficiency. Peter Costigan recently achieved Real Estate Sales Certification. Congratulations.

## Recycling

Too many people get it wrong in our recycling area on P1:

- Every day we find polystyrene and plastic in the cardboard recycling. Polystyrene is a contaminant, don't put it in the recycle bin.
- Always flatten boxes.
- Plastic bags are a contaminant. Take bottles and cans out of plastic bags when you put them in the bin. The same goes for boxes, please remove bottles and cans from boxes before putting them in the bin.

## Kerbside Collection

Our next kerbside collection will be in the week of 19 January 2015. Items such as disused bicycles, rugs, furniture and appliances are accepted. For more information on what can be collected please see the Brisbane City Council website.

Kind Regards

Admiralty Quays Management
